**“Our mission is to be the best in sourcing and supplying the world’s most beautiful roses to enable floral designers to meet and exceed their customers’ expectations”**

In a journey, you won’t forget moments when scent is involved. From all senses, smelling is the strongest to help you create long-lasting memories. English David Austin roses, French Meilland Jardin & Parfum roses, and Japanese Wabara roses are part of the collection.

Imported from farms in Kenya, Ecuador, and Columbia, the roses are distributed from our location in The Netherlands. Preferably to our partner wholesaler locations directly. Around Europe. The roses are not being sold at the auction clock. Many wholesalers have a live connection with our stock and also offer the roses in their webshops.

However, due to the high demand for our roses, the stock is often very limited. Fewer products are available the same day. We therefore ask florists to order their roses at least a week in advance. This enables us to guarantee the availability of most varieties. The best way to get your roses is to order at a Parfum Flower Company location near you. Order at least a week before you need the roses in your shop. Can’t find a wholesaler near you? Contact us at [sales@parfumflowercompany.com](mailto:sales@parfumflowercompany.com) so we can help you.
